Unique Aspects of Poland's Engagement with UNCSW and Gender Equality

- **Comprehensive Legal Framework:** Poland firmly stands by gender equality, a principle that's woven into its Constitution. It guarantees equal rights for both men and women and requires the state to actively work towards making those rights a reality.
- **Institutional Mechanisms:** The Plenipotentiary for Equal Treatment and the Commissioner for Human Rights play crucial roles in advancing gender equality in Poland.
- **Gender Mainstreaming Approach:** Poland is committed to weaving gender perspectives into every phase of policy-making and implementation across different sectors.

- **Representation of Women in Politics:** In the 2023 parliamentary elections, women made history by securing a remarkable 29.6% of the seats in the Sejm. With the new liberal government taking office in December 2023, prominent female leaders from the women's strikes, such as Agnieszka Ewa Dziemianowicz-Bąk and Barbara Anna Nowacka, were appointed as ministers. They now head the Ministry of Family, Labor and Social Policy and the Ministry of National Education, respectively. Moreover, a new minister for equality has been appointed to lead the government's initiatives on equality issues, including efforts to combat discrimination in various forms.
 - **Active Participation in UNCSW:** Poland is actively involved in UNCSW sessions, where it submits national reviews, makes statements, and participates in side events to exchange best practices and learn from other countries.
 - **Commitment to International Frameworks:** Poland is committed to aligning its national policies with international agreements, including the Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW) and the Beijing Platform for Action.
