10 Unique Aspects: Mexico & the UNHRC

1. **Extreme Criminal Violence & Impunity:** It's staggering to think that a whopping 90% of homicides go unpunished. Mexico stands out as a key example in discussions about justice and accountability for human rights.
2. **Mass Migration and Transit Abuses:** In early 2024, nearly 830,000 migrant apprehensions highlight serious rights violations related to asylum and migration policies.
3. **Mega-Projects vs Indigenous Consent:** The report from the Special Rapporteur raises an important alarm: megaprojects pose a serious threat to indigenous lands, which are crucial for the evaluations under HRC Item 7.
4. **Water & Sanitation as Human Rights:** Mexico has seen several SR inquiries regarding water rights, which suggests that HRC's jurisdiction extends beyond the usual political and civil issues.
5. **Chronic Disappearances and Torture:** Multiple submissions from NGOs and reviews by the Council shed light on the ongoing issues of torture and disappearances, calling for the UN to step in and demand accountability.
6. **Multiplicity of UN Rapporteur Engagement:** Mexico has welcomed visits from Special Rapporteurs focusing on issues like indigenous rights, water, torture, and freedom of expression—showing an unusual level of scrutiny from the UN.
7. **Civil Society Active UPR Participation:** The strong participation of NGOs like The Advocates and Amnesty in UPR cycles is really boosting the Council's transparency agenda.

8. **HRC as Diplomatic Arena:** Public responses to U.S. State reports indicate that Mexico is actively involved in discussions about diplomatic rights.
 9. **Private Sector's Role in Rights Erosion:** Economic interests tied to agribusiness and mining have resulted in threats against those who defend these causes—this is a key part of the Council's business and HR agenda.
 10. **Integrated Water Rights Innovation:** Partnerships such as Causa Natura–OHCHR–IMTA showcase Mexico's innovative approach to rights indicators, seamlessly integrating environmental and human rights considerations in the evaluation by the Human Rights Council.
